

Presentation for U.S. Department of State Team Manager

I used the Prezi.com application which provides advanced animations, layers and links, and a variety of multimedia embedment. This application is a high-end presentation platform that out-performs its PowerPoint competition.

Click the link below and ensure your sound is turned on... it helped turn a dry and potentially boring presentation into an engaging “journey” through two of the U.S. State Department’s field offices in Charleston, SC.
